

StreamUnlimited

About StreamUnlimited

StreamUnlimited is an integrated embedded engineering house focusing on innovative and quality products. We have high level competences in Connectivity and User Interface Technology, powered by a strong background in Audio and Video. We provide development and integration services to our customers. StreamUnlimited also offers a range of fully featured products.

Time to Market

StreamUnlimited offers its customers a TTM advantage by:

- Integrated development: Architecture, HW, SW, EMC, Test & Release, Industrialization
- Flexibility: Agile development methods, allowing to start with a draft specification, but with a fixed deadline
- Partner network: Excellent relations to all major IC suppliers, software partners, technology providers and industry

From idea to mass-production

We provide complete engineering services, from idea to mass-production:

- Reference and application designs
- System architecture
- Module and product development
- Demonstrators and prototypes
- Test & Release of connected products
- EMC service
- Industrialization & life cycle management
- Consultancy
